REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: applicant's arguments with regard to the features of original claim 4, which has been incorporated into the independent claims 1 and 7, are especially convincing because applicant has added new language "without being copied to the RAM" to the original language of claim 4, such that the resulting language of claims 1 and 7 was neither taught nor suggested, either alone or in combination, by any of the references cited by applicant or by the USPTO during the prosecution of this application. In addition, prior art systems would normally have copied the data to the RAM (either from the cache or from the memory, during or after the direct access by the CPU to non-volatile memory). Consequently, amended claims 1-3 and 5-7 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
